School News

Please do not send into school any food containing nuts. This includes items that say may contain.

Please remember to call the school office at 8.15am if your child is going to be absent.

Red Class

Red Class have been busy making purposeful marks whilst exploring different textures and ingredients such as fruit puree and semolina. We've also been enjoying our circus story, having lots of fun exploring colourful props, wigs, sunglasses and even trying our hand at juggling! It has been wonderful to see the pupils engaging, exploring and enjoying the magic of the circus!

Dragonfly Class

This week, Dragonfly Class created a UV Carnaby Street themed display using different techniques to decorate our sensory area. As part of our sensory cooking lesson, the children also learnt about flavours from different countries that we can find in London. They also chose props for our sensory story time and explored new books during our shared reading sessions.

Yellow Class

Another busy week in Yellow Class. In cooking we made rainbow wraps, using a variety of different coloured vegetables with a spread of houmous to make a colourful snack! We also had fun making our own slime. The pupils were able to communicate brilliantly for different colours and ingredients to add to the slime!

Pink Class

This week in Pink Class, the children have been exploring different shapes. They have enjoyed songs about shapes and used objects to help them develop their understanding. We have been continuing to explore new textures. The class really enjoyed mixing and kneeding the playdough ingredients together.

Blue Class

This week in Blue Class, we continued enjoying our story, '*Paddington Bear'* and took part in lots of fun activities linked to the book. The children used their PECS books, communication boards and CENMAC devices to make choices and request paintbrushes, glue sticks and scissors in our creative session. It was lovely to see the children communicating their ideas in their own way and becoming more confident and independent. The children enjoyed making their own Paddington Bear to choose different colours, shapes and materials.

Bumblebee Class

This week Bumblebee Class carried on exploring the topic of 'London', creating a traffic light for the class bus and developing a London skyline. In their literacy learning, pupils explored the key plot points in the story of '*The Queen's Hat'* by recapping the story in group learning and then matching visual sentences. In maths some pupils explored different ways of building towers and structures, whilst others took part in activities around number bonds to 10. In cooking the pupils made their own pancakes and they also created slime in an experiment!

Orange Class

This week Orange Class have been enjoying their music lessons, learning how to play different instruments such as drums and the guitar. Orange Class also loved their experiment, finding out if ice is hot or cold and learning how heat can melt cold ice. We loved touching the ice and feeling how smooth it was.

Gold Class

This week in Gold Class, our pupils have focused on developing key cognitive and practical skills. The children engaged in structured activities by sequencing and matching patterns. They also applied their instructional comprehension skills to a practical task, successfully following the steps to prepare a cucumber sandwich using bread and butter. We are very proud of the pupils' dedication to their learning and their growing independence this week.

Green Class

This week, Green Class have enjoyed taking part in lots of exciting sensory experiences. During our Fun with Food session, we explored warm vegetables and gravy. We enjoyed investigating the different smells, temperature, tastes and textures. We also had lots of fun exploring ukuleles during our music session. The children were encouraged to pluck the strings and feel the vibrations whilst listening to the different sounds they could create.

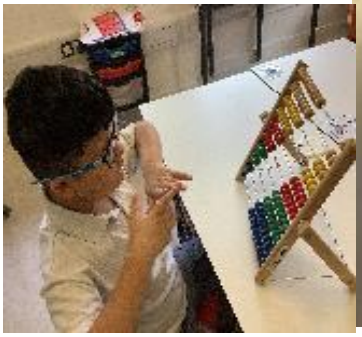

Rainbow Class

This week in Rainbow we have enjoyed a trip off-site to the Nature Garden. We explored different types of tree leaves and collected them to make our own leaf sun. In maths we have been learning about the months of the year and putting them in order.

Purple Class

Purple Class have had a fun and exciting week! This week Purple Class enjoyed exploring the topic of 'London', creating our own red London bus and Big Ben clock! In My Communication, we have been reading '*Paddington Bear'* and we played a fun matching game that tested our memory skills! We have also been using our senses to travel through London and learn new vocabulary. In our maths learning, some pupils explored counting along with nursery rhymes using ducks and green bottles, whilst others used an abacus to find number bonds to 10!

Butterfly Class

Butterfly Class have enjoyed exploring mark making with oats, coloured rice, spaghetti, tomato puree and crushed biscuits. They were .really engrossed in using celery, carrots and their fingers as mark making tools in yoghurt. Our music session was very engaging and the children used their voices to join in with songs and activities on the microphone.

Silver Class

This week, Silver Class pupils have been focusing on art, creating and decorating paintings linked to our new topic, 'London'. The pupils explored famous London landmarks and chose the colours they wanted to use to create their own paintings. Through this activity, pupils developed their fine motor skills, hand-eye coordination and brush control. They also practised making choices, expressed themselves creatively and followed instructions. The activity also supported the pupils' attention, concentration and independence as they worked on their individual pieces!

Unicorn Class

This week in Unicorn Class we have been working on our phonic knowledge using the Sounds Write programme, sounding out words and playing a game of four-in-a-row against our friends. We have also been working on answering who, what and where questions on a picture showing that we comprehend what we see.

Ladybird Class

This week Ladybird Class have enjoyed engaging in an experiment called rain in the cloud. The children have been developing their hand and eye coordination whilst pouring water and squeezing shaving foam to make a cloud. Ladybirds have demonstrated great concentration as well as fine motor skills whilst peeling off the star stickers and placing them on the paper to create a number pattern.
