

The Livity School

Pupil Premium Report 2019-2020

Pupil Premium received **£71,683.00**

How this was spent –

Educational Psychology	£15,190.00
Occupational Therapy	£13,154.00
SALT	£12,950.00
Music Therapy	£15,896.00
Movement Therapy	£11,970.00
Individual Resources	£2,523.00

At The Livity School, we are committed to raising pupil achievement across our curriculum alongside the wider developmental learning needs of our pupils. We invested the pupil premium income in targeted additional support to enable us to meet our pupils' special educational needs, the main barrier to learning. The additional support is to ensure pupil outcomes, in terms of their progress, achievement and engagement in the curriculum, are met.

Internal progress data for eligible pupils: 2019 - 2020

91% pupils in receipt of the Pupil Premium achieved or exceeded expected progress.

Progress Pupil Premium	Number of pupils 51	Percentage

1. Educational Psychology

Objective: To support staff and parents/carers in managing pupils with challenging behaviour

Outcome: Increased confidence of staff/parents/carers in managing behaviour positively; decrease in number of incidents for identified pupils.

Evidence: Behaviour support plans, behaviour logs

Cost: £15,190.00

2. Occupational Therapy

Objective: To support individual pupils with sensory regulation needs enabling them to attend to and engage in their learning

Outcome: Pupils more able to participate in a range of activities and cope with changes

Evidence: OT reports

Cost: £13,154.00

3. Additional Speech and Language Therapy

Objective: To provide targeted communication support for identified pupils/training school staff in interventions such as colourful semantics

Outcome: Pupils have personalised methods of communication including AAC

Evidence: Communication progress data, additional equipment for individual pupils identified

Cost: £12,950.00

4. Music Therapy

Objective: To provide strategies for supporting pupils and develop sustainable interventions. Pupils referred continue to respond positively to this support.

Outcome: Targeted intervention strategies for pupils. Increased engagement in the curriculum. Support to develop language or communication skills. Support for emotional needs.

Evidence: Progress data, music therapy reports and staff teams

Cost: £15,896.00

5. Movement Therapy

Objective: To provide opportunities for pupils to express themselves in non-verbal ways and develop their communication and interaction skills

Outcome: Improved communication skills, improved emotional regulation

Evidence: Progress data, therapist reports

Cost: £11,970.00

6. Individual Resources

Objective: To provide personal resources to support identified pupils' specific needs

Outcome: Specific equipment bought for targeted pupils – eg Big MAC Switch.
Increased engagement with others.

Support to develop language and communication skills

Evidence: Improved progress with communication skills.

Cost: £2,523.00

Date for next review: November 2021
