<b>Total Pupil Premium Grant Received:</b>	<b>£97,485</b>

### How this was spent –

Educational Psychology	£20,658
Occupational Therapy	£17889
SALT	£17610
Music Therapy	£21618
Movement Therapy	£16279
Individual Resources	£3431

At The Livity School, we are committed to raising pupil achievement across our curriculum alongside the wider developmental learning needs of our pupils.

We invested the pupil premium income in targeted additional support to enable us to meet our pupils' special educational needs, the main barrier to learning. The additional support is to ensure pupil outcomes, in terms of their progress, achievement and engagement in the curriculum, are met.

### Internal progress data for eligible pupils: 2023 - 2024

95% pupils in receipt of the Pupil Premium achieved or exceeded expected progress.

<b>Progress Pupil Premium</b>	<b>Number of pupils</b>	<b>Percentage</b>

### 1. Educational Psychology

**Objective:** To support staff and parents/carers in managing pupils with challenging behaviour

**Outcome:** Increased confidence of staff/parents/carers in managing behaviour positively; decrease in number of incidents for identified pupils.

**Evidence:** Behaviour support plans, behaviour logs

**Cost: £20,658**

### 2. Occupational Therapy

**Objective:** To support individual pupils with sensory regulation needs enabling them to attend to and engage in their learning

**Outcome:** Pupils more able to participate in a range of activities and cope with changes

**Evidence:** OT reports

**Cost: £17,889**

### 3. Additional Speech and Language Therapy

**Objective:** To provide targeted communication support for identified pupils/training school staff in interventions such as colourful semantics

**Outcome:** Pupils have personalised methods of communication including AAC

**Evidence:** Communication progress data, additional equipment for individual pupils identified

**Cost: £17,610**

### 4. Music Therapy

**Objective:** To provide strategies for supporting pupils and develop sustainable interventions. Pupils referred continue to respond positively to this support.

**Outcome:** Targeted intervention strategies for pupils. Increased engagement in the curriculum. Support to develop language or communication skills. Support for emotional needs.

**Evidence:** Progress data, music therapy reports and staff teams

**Cost: £21,618**

## **5. Movement Therapy**

**Objective:** To provide opportunities for pupils to express themselves in non-verbal ways and develop their communication and interaction skills

**Outcome:** Improved communication skills, improved emotional regulation

**Evidence:** Progress data, therapist reports

**Cost: £16,279**

## **6. Individual Resources**

**Objective:** To provide personal resources to support identified pupils' specific needs

**Outcome:** Specific equipment bought for targeted pupils – eg Big MAC Switch.  
Increased engagement with others.

Support to develop language and communication skills

**Evidence:** Improved progress with communication skills.

**Cost: £3,430**

**Date for next review: May 2024**
