

## The Livity School Weekly Newsletter

### School News

Nick Black, our School Governor, organised a wonderful visit from a classical band from Dulwich College. The children were very interested in the music and some joined in by dancing along.

On the 15<sup>th</sup> July we will be holding our Sem-Formal Curriculum Sports Day. Parents from Ladybirds, Pink, Blue, and Orange Classes are invited to join us from 10.00 until 10.45. Parents from Purple, Gold, Silver and Rainbow Classes are invited to join us from 11:00 until 11:45. It will be lovely to see you all in school during this event.

**Please remember to call the school office before 7.30am if your child is going to be absent.**

#### Red Class

We have been enjoying *Mental Well-Being* activities this week. We have focused on activities that we enjoy and make us feel happy. We have had massage and foot spas which were very popular. We have music each week with Kim our music teacher. The children love playing the instruments and singing into the microphone.

#### Yellow Class

Yellow Class children have been expressing themselves through art. They have used their favourite materials to create amazing pieces of work. They have also been very focused in their physiotherapy programs and some children have used their walkers around the

school to explore different areas of the building.

#### Pink Class

Pink Class loved taking part in the CREATE project this week and learning about the ocean and taking care of it. We also enjoyed making (and eating!) coconut and pineapple ice lollies in cooking, and painting to the sound of different pieces of music in our *My Creativity* lesson.

## Blue Class

Blue Class children enjoyed exploring the different materials from under the sea at the CREATE project. The children also enjoyed exploring coloured lights in the blackout tent. Have a lovely weekend.

## Orange Class

In Orange Class this week, children continued to familiarise themselves with British coins. They enjoyed listening to the song about money and some made us very happy by starting to hum or sing part of the song. During our cooking sessions, children had lots of fun cutting fruits to make a fruit salad.

## Ladybird Class

Ladybird Class had a great week. We created some beautiful art work making salt painting. Some children enjoyed exploring with different textures of materials during sensory play activities. P.E was great! All of the children participated and followed simple instructions and copied movements and actions.

## Rainbow Class

Rainbow Class had a good week. We went shopping and posted letters. We went shopping for snacks. All the students helped in choosing items and scanning them at the self-checkout. We look forward to the end of year activities in the coming weeks.

## Green Class

The Green Class children enjoyed making peppermint creams this week. They enjoyed tasting and exploring the ingredients. The children really enjoyed the visit from the classical music band. The children were moving and vocalising along to the music.

## Purple Class

This week in Purple Class we have been working hard on addition and subtraction. We have also been working on lots of exciting science experiments!

## Butterfly Class

In Butterfly Class we have really enjoyed our *Mental Well-Being* week. We particularly liked creating volcanoes and making cola fountains for the 'I am capable' themed day. We also liked looking for hidden items under scarves and in shredded paper for the 'I am

resilient. We have also taken part in mindfulness sessions and had a class party.

### Gold Class

Gold Class has had a fantastic week. We have been working on our fine motor and writing skills. We are learning about animals and their needs.

We enjoyed our trip to Battersea Zoo on Monday where we could see different animals from different habitats.

### Silver Class

This week Silver Class has learned all about plants. Pupils were asked to choose what they would like to grow. Pupils have been able to describe the essential parts of a plant by labelling a picture of a plant, including roots, a stem, a flower, and leaves.

### Stay Alert to the Symptoms of Coronavirus

**HIGH TEMPERATURE**

**NEW CONTINUOUS COUGH**

**LOSS OF TASTE OR SMELL**

For guidance on responding to Corona Virus in children please visit the following web address:
