

## The Livity School Weekly Newsletter

### School News

#### Wednesday 26<sup>th</sup> March 9.30 until 10.30 Family Group

A talk about Healthy Zones. How to help your child make healthy food choices.

**Please remember to call the school office before 7.30am if your child is going to be absent.**

#### Red Class

Red Class have been developing their play skills, exploring favourite items and sharing with a peer. We have been enjoying the noisy, wooden mobiles. We took part in a V and A creative workshop. We particularly liked exploring the ribbons by pulling them through our hands.

#### Yellow Class

In Yellow Class this week we have been busy investigating different aspects of our story 'Mr Wolf's Pancakes'. We were able to answer questions about the text and really enjoyed exploring some physical resources. In cooking we made our own strawberry trifle. Yum!

#### Pink Class

In Pink Class the children created their own playdough. They actively participated in every step; measuring, mixing and kneading the dough until it was just right. They also used their communication systems to make choices and personalise their dough.

#### Blue Class

This week we read the book 'Dear Zoo'. The children were engaged and listened attentively to the story. After the story, they decorated their own lion. They were given a circle and different colours of paper to tear to create the face of a lion. The Occupational Therapist helped the children to practise their fine motor skills to complete the activity.

#### Orange Class

In our How My World Works lesson on materials and their properties, we were keen to sort items that were soft from those that were hard. We collected different objects and then used our communication systems to categorise them. We also learnt the Makaton symbol for 'hard' and 'soft'.

**Ladybird Class**

This week Ladybird Class have demonstrated good pouring skills whilst carrying out an experiment called coffee ground fossils. They created imprints in the granules to make imitation fossils. Ladybirds have enjoyed making oat biscuits in the food tech room this week. They have shown good motor skills whilst mixing all the ingredients up and they were delicious.

**Dragonfly Class**

This week, Dragonfly children continued working on the sensory story 'Charlie and the Chocolate Factory'. The children dressed like Mr. Wonka and chose their favourite props for the lesson. They also enjoyed their music session and joined the teacher whilst she was singing, by playing the guitar, the drums and the shakers. We also celebrated Red Nose Day by creating a collage with different textures.

**Rainbow Class**

Rainbow Class enjoyed Science Week at Livity and Elm Court. They were dressed in their lab coats, like actual scientists completing different experiments. They also met different animals and touched them.

**Green Class**

Green Class enjoyed doing experiments in My Cognition as part of Science Week. We particularly enjoyed participating in the bubble snake experiment. Green Class showed lovely realisation and anticipation during the experiment and did some great exploration of the bubble snakes they made.

### Purple Class

This week Purple Class have been practising their fine motor skills. As part of our story 'Handa's Surprise' we have been cutting out fruit pictures and sticking them on to our baskets.

### Butterfly Class

In the last week Butterfly Class have had a go at some experiments for Science Week. We enjoyed making cornflour slime and feeling how sticky it became as we explored it. We have also continued our food exploration, getting our hands into porridge and pasta.

### Bumblebee Class

This week Bumblebee Class really enjoyed their art activities. We used different art media including collage materials, paint and glue to create very colourful pictures. We have also been doing activities to recognise emotions and matching the emotion to the picture.

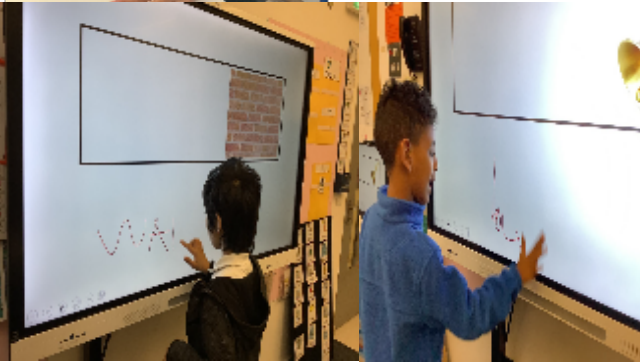

### Gold Class

This week, during our gardening lesson, the pupils in Gold Class have sown seeds to see how they grow. The pupils also followed the steps to complete a self-inflating balloon during our experiments. We are working on solving additions in our My Thinking lessons.

### Silver Class

This week in Silver Class, one group worked on listening to letter sounds and creating CVC words. Whilst the other group explored extending the phonics code. The children learnt that the same sounds can be represented by different letter combinations, such as; "ai" in "rain" and "ay" in "play", "ea" in "seal" and "ee" in "tree."

## Don't Forget

All our term dates are available on our website  
<https://www.thelivityschool.co.uk>

**Wednesday 26<sup>th</sup> March 9.30 until 10.30**

### **Family Group**

A talk about Healthy Zones. How to help your child make healthy food choices.

**Wednesday 2<sup>nd</sup> April 9.30 until 10.30**

### **Parent and Carers' Wellbeing Group.**

This is a social with activities chosen by you so please let us know what you would like.

**Term finishes on Friday 4<sup>th</sup> April at 1pm**

If you have any issues with transport, please contact **London Hire** on the following numbers  
**Tel: 0208 187 5318 / 0208 187 5317 / 0208 187 5316**

## Unicorn Class

This week in Unicorn we had fun learning about St. Patrick's Day and why it is celebrated. We also made our own St Patrick's Day headbands to wear. We have also been enjoying our gardening sessions on Wednesdays and have been looking at the parts of plants in science.
