

Continence product supplies information

Aka Pads, Pampers, diapers, nappies.

Children are eligible for a Continence assessment and may be eligible for products from the age of 5yrs.

In some cases where the child is a wheelchair user or unable to weight bear, this may be from 4yrs.

Children are provided with a maximum of 4 products per day, which are designed to be in addition to whatever the parents are purchasing for their child, *not instead of*.

If your child's pad is too small, leaking, or causing any other issues, please contact Jane Thomas, the Continence Clinical Nurse Specialist.

Our first and foremost aim is to prioritise toilet training, however this often takes much longer for a child with additional needs and may not be possible for all children.

If you feel that your child has the potential to be toilet trained, please do not hesitate to contact Jane.

There is information in school for reordering products once an order has been placed, please ask the School Nurse or class teacher and they will be able to provide you with that leaflet.
