

School News

Queen's Jubilee As we start the countdown to the four days of celebrations for The Queen's Platinum Jubilee, the pupils have been busy making their banners and posters. We hope that you are able to take part in some of the activities that will be taking place over the bank holiday weekend. This will be a wonderful opportunity for communities and people throughout the United Kingdom to come together to celebrate the historic milestone.

Please remember that the last day of term is **Wednesday 25th May**. School will re-open on **Monday 6th June**.

Reminder – Punctuality, Medical Appts and Absence from School

You must bring in a copy of a letter, appointment card or note from your GP for any medical appointments your child may have to attend during school time. All students should arrive in school before the close of daily registration. If your child is marked absent at registration and the school has not received a call from you, you will be contacted by a member of the adm team. If we fail to make contact, we will move on to the other contact numbers you have given us. It is therefore extremely important that we have up to date contact information on our database, so please remember to let us know of any changes.

School Photographer – The school photographer will be in school on the **10th June**.

[Please remember to call the school office before 7.30am if your child is going to be absent.](#)

Red Class

As part of our topic about water, we have been learning about what plants need to grow. We know they need water and have watered our plants well so that they can grow and give us some vegetables to eat, smell and taste.

Yellow Class

Yellow Class children have been painting with their feet while moving their bodies in the hoist. They walked over the paint to feel the texture and to create a magnificent rainbow for a class display. The children have also been exploring the texture of bath jelly and found hidden sea creatures.

Pink Class

This week Pink Class have been exploring shapes and looking at tangrams. We made a boat and a house using different shapes. We've also been busy in PE working on our throwing and catching skills. We made a delicious fruit salad in cooking this week.

Blue Class

In Blue Class this week, children have been developing their relationships and interactive skills through play. Children have been exploring and observing the effects when sand is mixed with water, as well as exploring the concept of floating and sinking. Children have also been playing turn-taking games and sharing toys whilst playing together.

Orange Class

This week we have been focusing on the principles of addition. The children demonstrated a very good understanding and enjoyment during these sessions. Our cooking session provided children with opportunities to taste fruits and use them to make fruit ice lollies.

Ladybird Class

Ladybird Class had a great week. The children did lovely maths activities with numbers, colours, and shapes. Our art session was also fantastic! The children mixed paint to create mark-making. They also used ice lollies to create marks in *Fun with Food*.

Rainbow Class

Rainbow Class went to the London Aquarium last Friday. We had an excellent time walking around and making scientific observations. We saw all the sea animals and even touched a starfish! We even got a close up of a penguin.

Green Class

This week in Green Class the children have been enjoying exploring their environment, while in their walkers. They also enjoyed water play on the terrace.

Purple Class

This week Purple Class have been learning to tell the time and doing very well. We have also been learning to operate the microwave and the toaster to make breakfast for our friends.

Butterfly Class

In Butterfly Class we really like cooking. This week we made tasty smoothies using watermelon and really enjoyed controlling the blender using a flat switch.

Gold Class

Gold Class children have been exploring and experimenting to answer the questions: 'Why does it rain?' and 'What is rain?' We are learning about animals that love rain too. We followed a recipe to make an ice lolly with peach and pineapple and enjoyed eating them on a really hot day in our Sensory Garden!

Silver Class

This week Silver Class have been developing their handwriting skills. At The Livity School, we teach the children to write in pre-cursive script and they will have plenty of opportunities to practise during the upcoming weeks. We have also been focusing on number work, especially recognising numerals 1—20 and reciting numbers in order. Using fingers/marks/pictures to represent numbers and realising anything can be counted, including jumps and claps.

Stay Alert to the Symptoms of Coronavirus

HIGH TEMPERATURE	NEW CONTINUOUS COUGH	LOSS OF TASTE OR SMELL?
